COROPLAST SIGNS

WHAT IS COROLAST?

Coroplast is corrugated plastic that is available in different thicknesses. It consists of two pieces of flat plastic attached by hollow flutes that run between the flat surfaces. A good way to describe it to clients is to let them visualize a piece of cardboard made entirely out of plastic.

Coroplast is suitable for both indoor and outdoor use. It is lightweight, waterproof, and easy to clean.

H-STANDS

H stands are inserted into the vertical flutes of coroplast signs at one end and inserted into the yard at the other end.

Our H-stands are 29.5" (h) x 9.5" (w).

That means only coroplast signs that are wider than 9.5" can be used with H-stands.

✔ 4mm, 6mm

✘ 8mm

H-stands are specifically designed for 4mm and 6mm coroplast signs. They are not recommend for use with 8mm coroplast.

When ordering coroplast signs that you plan to use with H-stands, make sure you select **H-Stand Compatible: Yes**.

This ensures that the flutes in your signs will run **vertically**.

If you select **H-Stand Compatible: No**, the flutes may run **vertically or horizontally**.

You can order H-stands under "Office Materials".

GROMMETS

Coroplast signs can be ordered with grommets. Depending on the size, different grommet options are available. These options include the following:

- Top 2 corners

- All 4 corners

- Every 2 - 3 feet on sides

- Every 2 - 3 feet all around

- Every 2 - 3 feet on top and bottom

You may include grommet placement on your file as small dots.
